The new Massey Ferguson 5 Series tractor features the new MF design introduced on the already popular 8S, recognisable by its grey "SABRE" stripe.

This replica model has all the details that made the original so successful.

The bonnet is sharply shaped and sloping and the headlights are banded.

The front and rear three-point hitches are functional, as is the steering, and the mirrors are removable.

The new cabin is very detailed with dials on the dashboard, the controls are all grouped on the armrest, as are the levers and screens too.

All decorations and markings are pad printed and the tyres are made of rubber.

A model that belongs in every collection alongside the MF 8S.165.
