Wurth Zinc Spray 400ml

REF: 0893114113 DEPOT: LEVENS

£17.50 + VAT

BRAND: WURTH

| YEAR | HOURS/MILES | WEIGHT |
|------|-------------|--------|
| - | - | - |

Outstanding long-term protection and optimum metal surface appearance
 High layer thickness in first spray pass
 High degree of safety thanks to optimum weathering protection
 Minimum amount of time spent, as only one operation is required
 Good coverage
 Versatile use with adjustable spray head
 Large area and minor repairs can be carried out quickly and reliably with the variable spray head.
 High degree of resistance to running.
 High degree of wear resistance.
 Tested corrosion protection in accordance with DIN.
 Perfect zinc spray, light: 250 hours.
 Perfect zinc spray: 500 hours.
 Can be used for repairs in accordance with DIN EN ISO 1461.
 Spot weldable.

Key features

NOTICE

Perfect zinc spray and Perfect light zinc spray contain zinc, and therefore offer optimum, active cathodic protection against corrosion. If the surface is damaged, the zinc coating sacrifices itself (sacrificial anode), thereby protecting the metal against rust. The remaining products protect the entire surface against rust. If the surface is damaged, the metal is no longer protected.

Not suitable as adhesive base for PU, MS polymer or hybrid sealing compounds.
